NOT PICTURED: John F. O'Neill, MD*

Enhancing Washington's Vision for More Than 40 Years

The physicians at Eye Doctors of Washington combine experience, expertise, and modern technology to offer patients the best possible care in the DC area, at offices in Chevy Chase, MD, downtown DC, and Tysons Corner, VA. They are the eye doctors of the Washington Capitals.

Drs. Thomas Clinch and Paul Kang are the practice's most experienced cataract and refractive surgeons. They were both selected to the *Super Doctors*® list, and along with Dr. Vicente have been chosen as *Top Doctors* by *Washingtonian* magazine. Drs. Kang and Clinch are the first doctors in the Washington area to offer bladeless, all-LASER cataract surgery, and also use lenses to decrease the need for glasses after surgery. They also specialize in state of the art *all-laser LASIK*. They have performed over 30,000 cataract and refractive procedures, and lecture locally and nationally on these topics.

Dr. G. Vike Vicente specializes in pediatric ophthalmology and adults with strabismus or *lazy eye*. He completed his fellowship at Harvard-

Boston Children's Hospital and lectures as a distinguished professor to major teaching hospitals in the United States.

Dr. Mary Catherine Fischer is an accomplished eye plastic surgeon at EDOW. She specializes in eyelid and facial rejuvenation via the latest surgical techniques using radiosurgery. She also offers other cosmetic procedures such as Botox and dermal fillers.

Dr. Hylton Mayer is an expert in the medical and surgical management of glaucoma and complex cataracts. He offers the latest medical, laser, and surgical options for glaucoma patients. Prior to joining EDOW, Dr. Mayer served on the faculty at the Yale University School of Medicine.
