*CHOSEN TO 2010 SUPER DOCTORS

TOP ROW (L TO R): Robert Ollar, PhD, *molecular biologist*; Jason Bratcher, M.D., *advanced endoscopy*; Sean Farquharson, M.D., *interventional radiology*; Anthony Starpoli*, M.D., *esophageal diseases and endosurgery*; Zujun Li, M.D., *oncology*; Franklin Kasmin*, M.D., *medical director*; Armand Cacciarelli, M.D., *inflammatory bowel disease*; David Ulrich, M.D., *advanced endoscopy fellow*; James Pacholka*, M.D., *advanced surgical laparoscopy*; Avram Cooperman, M.D., *surgical director*; **BOTTOM ROW:** Justin Steele, M.D., *general/laparoscopic surgery*; Howard Bruckner, M.D., *oncology*; James Robillotti, M.D., *GI section chief*; Michael Wayne, D.O., *pancreatic-biliary surgery*; Michael Edye, M.D., *advanced surgical laparoscopy*; Nicholas Gualtieri, M.D., *esophageal diseases*

The Comprehensive GI Center of New York provides extraordinary, coordinated care via several centers of excellence. We are surgeons, gastroenterologists, oncologists, radiologists and researchers, practicing together in a central location at St Vincents Hospital in Manhattan. Provided services include:

THE PANCREAS AND BILIARY CENTER

- More than 40 years of continuous care of pancreatic and biliary disorders
- One of the nation's busiest programs for diagnosis and management of biliary/pancreatic disease including pancreatitis and cancer
- Our surgeons and endoscopists pioneer current therapies
- Advanced training program and a research center for graduate and trained physicians
- Integrated care with oncologists, radiologists, pain management specialists and nutritionists
- Leaders in ERCP, EUS and endoscopic resection of early cancers
- Genetic research and counseling
- Therapeutic trials in benign and malignant disease

THE LARGE AND SMALL BOWEL DISORDERS PROGRAM

- Colon Cancer Screening
- Laparoscopic colectomy and Retroperitoneal Tumor Therapy
- Endoscopic Ultrasound of the Rectum and Colon
- Deep Small Intestine Endoscopy and Capsule Endoscopy
- Endoscopic Resection of complex mucosal tumors
- Medical and Surgical management of Inflammatory Bowel Disease
- Complex Hernia Repair and Abdominal Wall Reconstruction

THE ESOPHAGEAL DISEASE CENTER

- Thought leaders and pioneers in the endoscopic and laparoscopic management of reflux disease
- Medical management of esophageal disease by gastroenterologists with more than 50 years of combined experience
- Assessment and treatment of Barrett's esophagus and early cancer with endoscopic techniques, including BarrX
- Expert esophageal motility (manometry) and 24-hour impedance/pH monitoring
- Active research in the medical and endoscopic treatments of reflux
- Offering the newest minimally invasive, antireflux endosurgery with the EsophyX Transoral Incisionless Fundoplication (TIF) procedure
